Ian Cheung

iancheung@berkeley.edu · iancheung.dev · iancheung0202 · iancheung0202

Education

University of California, Berkeley Expected Graduation: December 2027
B.A. in Applied Mathematics, Data Science, Minor in Music **GPA:** 3.8
Relevant Coursework: Structure and Interpretation of Computer Programs, Foundations of Data Science, Multivariable Calculus, Discrete Mathematics, Linear Algebra, Data Structures, Probability & Statistics, Machine Learning, Data Engineering

Henry M. Gunn High School August 2022 – May 2025
High School Diploma **GPA:** 4.78
Advanced Coursework: AP Computer Science A, AP Statistics, AP Physics C, AP English Literature, AP Chemistry, AP US History

Experience

Staff *Open Computing Facility, UC Berkeley* August 2025 – Present
- Help maintain a Linux-based computer lab's resources and remote login servers, serving 80,000+ students and faculty.
- Built an officer history system with a production LDAP schema, unit-tested library, admin CLI, and public site across 6 repos.

Discord Community Intern *Division of Student Affairs, UC Berkeley* February 2026 – Present
- Built a custom dashboard and Discord bot with data privacy pipelines to process 100,000+ sensitive student roster records.
- Manage official campus Discord server of 11,000+ students, simplifying verification processes and increasing engagement.

Logistics Member *Berkeley Math Tournament* September 2026 – Present
- Contribute to logistics for the world's largest single on-site math tournament, reaching 4,000+ students annually across events.
- Built a tournament-day companion with live schedules, room lookup, and interactive campus maps for contestants and coaches.

Community

Mathematics Tutor *Bridging Berkeley* September 2025 – Present
- Deliver individualized math support to 100+ middle school students on a weekly basis.

Vice President of Education *OpenBrackets* April 2023 – April 2025
- Taught 8-week Python programming course across 4 semesters to 100+ middle schoolers with no prior coding experience.
- Designed interactive Google Colab notebooks covering programming fundamentals, data structures, logic, and basic algorithms.

Projects

Lemon *React · FastAPI · PostgreSQL · AWS* September 2026 – Present
- Built a real-time proctoring platform for Berkeley Math Tournament, syncing timers and clarifications for 2,000+ contestants.
- Designed role-based admin tools for 300+ volunteer proctors, managers, and test organizers on tournament day.

MystiCraft *Discord.py · FastAPI · MariaDB · Pterodactyl* February 2023 – Present
- Built a full-stack Minecraft tierlist app handling 10,000+ monthly PvP duels for in-game ranks.
- Developed and maintain a Discord bot with real-time cross-server staff management, role syncing, and player waitlist queues.
- Designed a conditional ticket tree pipeline processing hundreds of appeals, role applications, and support queues daily.

Fischl *Discord.py · Flask · Prometheus · Grafana* February 2022 – Present
- Built and maintain a popular Discord bot including a currency and co-op system, serving servers with 300,000+ total users.
- Developed a full-stack web dashboard with Flask backend for server admins to configure settings and view analytics reports.

Technical Skills

Languages: Python · Java · JavaScript · TypeScript · SQL · R · Bash · HTML/CSS · Scheme
Data & ML: Pandas · Polars · NumPy · Scikit-learn · TensorFlow · Matplotlib · Jupyter · PyTorch
Web & Backend: React · Node.js · Express.js · Tailwind · FastAPI · Flask · Django · REST APIs
Infrastructure: Linux · AWS · Docker · Kubernetes · Puppet · Nix · Nginx · Caddy · Cloudflare · Prometheus · Grafana
Databases & Tools: PostgreSQL · MariaDB · MongoDB · SQLite · Alembic · Git · GitHub Actions · CI/CD · Pytest
