

Ian Cheung

iancheung@berkeley.edu · (650) 398-8393 ·  iancheung.dev ·  iancheung0202 ·  iancheung0202

EDUCATION

University of California, Berkeley

Expected Graduation: December 2027

B.A. in Applied Mathematics, Data Science, Minor in Music

GPA: 3.88

Relevant Coursework: Structure and Interpretation of Computer Programs, Foundations of Data Science, Multivariable Calculus, Discrete Mathematics, Linear Algebra, Data Structures, Probability & Statistics, Machine Learning, Data Engineering

Henry M. Gunn High School

August 2022 – May 2025

High School Diploma

GPA: 4.78

Advanced Coursework: AP Computer Science A, AP Statistics, AP Physics C, AP English Literature, AP Chemistry, AP US History

EXPERIENCE

Discord Community Intern *UC Berkeley Division of Student Affairs*

February 2026 – Present

- Manage official campus Discord server of 11K+ students, simplifying student verification processes and increasing engagement.
- Built a custom dashboard and Discord bot with secure data privacy pipelines to process 100K+ sensitive student roster records.

Mathematics Mentor *Bridging Berkeley*

September 2025 – Present

- Deliver individualized math support to 50+ Longfellow Middle School students on a weekly basis.
- Translate complex mathematical concepts into accessible lessons tailored to varying class levels.

Vice President of Education *OpenBrackets*

April 2023 – April 2025

- Taught 8-week Python programming course across 4 semesters to 100+ middle school students with no prior coding experience.
- Designed interactive Google Colab notebooks covering programming fundamentals, data structures, logic, and basic algorithms.

PROJECTS

MystiCraft *Full-Stack Developer*

February 2023 – Present

- Built a full-stack Minecraft tierlist app with FastAPI and MariaDB handling 5,000+ monthly players' PvP duels for in-game ranks.
- Developed and maintain a Discord bot with real-time cross-server staff management, role syncing, player waitlist queues.
- Designed a conditional ticket tree pipelines processing hundreds of appeals, role applications, and support queues daily.

Fischl *Creator & Lead Developer*

February 2022 – Present

- Built and maintain a popular Discord bot including a currency and co-op system, serving servers with 300,000+ total users.
- Developed full-stack web dashboard with Flask backend for server admins to configure settings and view analytics report.
- Deployed Prometheus and Grafana monitoring infrastructure to track system performance metrics and ensure reliability.

Analysis of California Traffic Collisions

July 2024 – August 2024

- Analyzed 5 million collision records applying data cleaning, EDA, feature engineering, and end-to-end model deployment.
- Trained and tuned random forest and logistic regression models to identify key factors of collision severity.
- Developed data-driven policy recommendations with supporting visualizations for roadway safety improvements.

RecycleSorter

January 2023

- Built and deployed an image classification pipeline with TensorFlow.js to categorize items as recyclable, compost, or landfill.
- Awarded Most Creative Award at GunnHacks 9.0 for the web app performing real-time waste classification via live camera.

Librarian Attendance System *Chief IT Developer*

September 2021 – May 2022

- Built an automated clock-in system for La Salle College librarians, reducing manual spreadsheet data entry time by 90%.
- Designed web interface for student ID card check-in/out with timestamp logging and weekly shift report generation.

TECHNICAL SKILLS

Software Development: Python · Java · HTML/CSS/JavaScript · TypeScript · Bash · SQL · Scheme

Infrastructure & Databases: PostgreSQL · MariaDB · SQLite · Firebase · Docker · Prometheus · Grafana · Cloudflare · Nginx

Web Frameworks: Bootstrap · Tailwind · React · Node.js · Express.js · Flask · FastAPI · Axios

Data Science: Pandas · Polars · NumPy · Scikit-learn · R · TensorFlow · Jupyter Notebooks
